DUELING IN SONGRA.

Guaymas, Aug. 14 .- A duel came off here a few days ago between two young bloods, resulting in one being wounded and the other placed in durance vile.

Marselles, August 14 .- For the 12 hours ending at moon to day, there were four deaths in the outlying districts. The weath-

CHOLERA INCREASING.

er continues intensely hor. DIVE UP THE COURT HOUSE. New Orleans, Aug. 16-The Louisiana field artillery, with sixty four men, under Captain Cheolpeka, with small arms and

field piece, left at noon on a special train for New Iberia. They will report to Genif the court house is not turned over by the same. parties in charge.

Galveston, Aug. 15 .- Green McCvllough resterday paid an old grudge against Chas. Bragg, a recent arrival, by killing him with a rifle as the victim's back was turned to him. McCullough was arrested and lodged in jail. It midnight he was taken out and hanged by the enraged citizens of Callula, at which place he committed the deed and was confined.

WASHINGTON NEWS.

Washington, Aug. 13 .- Upon inquiry at this government is doing all in its power to discover the whereabouts of Sheldon, the Englishman who is alleged to have been kidnapped several weeks since in the neighporhood of Kansas City.

A delegation of Comanche, Kiowa and Wichita' Indians, was at the interior de-partment to day to ascertain the proper course to be pursued in leasing their lands. They desire to lease between 2,000,000 and cattle men.

CANIBALISM.

New York, Aug. 15 .- The officers and men of the Alert, Thetis and Bear refused to say anything for publication about the new tale of sufferings of the Greeley party. It is evident from the tone of their conversation that the reports of cannibalism at Cape Sabine have some foundation. One of the gentlemen connected with the relief expedition, who did not wish his name used, said the opinion among the officers was only when it was either that or death. The gentleman said "any one can easily understand that men who had been living for months on a few shrimps a day, are not exacty in their right minds. When Greeley was found the party were more or less out of their heads. They had suffered so much from bunger and exposure that a collapse was very near. It is easy to see - that for months dominant, the only idea in the minds of these men was how to get food, They probably dreamed and thought of nothing else." They cannot be blamed for eating whatever they could find,"

The Bear was open to visitors, and the east-iron tank in which the bodies of the six victims had been preserved was on deck. It is four and a half feet long by twenty inches wide, and the bodies of the men, it is admitted, were merely skin and bones.

TEXAS FEVER.

Las Cruces, N. M., Aug. 16-The outbreak of the Texas fever on the l'ecos, Lincoln county, has occasioned great alarm among stock growers. The disease is believed to have been brought by a herd of Texas cattle recently imported by the New England Cattle company at Fort Summer. Several hundred domestic cattle have died in proximity to the trail over which the infected herd passed. Lincoln county stock association here adopted very rigid measures to prevent the spread of the disease. All the stock slong the Pecos has been driven back to the mountains and Texas drovers have been notified that further introduction of infected cattle will be resisted by force.

THEY HAD TO EAT HUMAN PLESH.

New York, August 16 .- Coroner Robinson of Long Island city has, written Nora she desires his body examined. If she replies affirmatively, the coroner will have them exhumed. The citizens of Brooklyn are greatly excited.

Third Officer Kelley of the steamer Bear, this morning said that the reports of esting the flesh of Lieutenant Kistingbury and Private Heavy were true, as the survivors when brought on pourd were all delirious and said that they had to eat dead bodies to preserve their own lives. The cook of the Bear said all the survivors stated that they had to eat the flesh of the dead, as all their food, except a little leather or seal skin, had given out. All the men on board the Bear knew that the bodies had been eaten, but were told not to speak about it when they got into port.

A TERRIBLE CRIME.

Sycamore, Ill., Aug. 17-The knowledge of the killing of Kitty, the 17 year old daughter of Heck Mitchell, a farmer three miles west of here by a farm hand yesterday, created a great excitement in this city. The murdered girl's parents had left the house after dinner for Sycamore leaving their daughter at home with Taylor, who was working near the house. Alice Dennis the daughter of a neighbor, was to pass the afternoon with Kitty. When the latter arrived at 2.30, she made the horrible discovery that Kitty was a corpse. That her clothing had been set fire to my Taylor, who had evidently attempted to surrage her. Two hundred men set cut upon his trail. They finally discovered him near a creek. Taylor was seen to run into the stream and killed himself with a pistol shot in the head. His body was recovered. The eral Percy, who will give necessary orders mother of the murdered girl has become in-

THE EXECUTION OF BENRY.

wrote to Secretary Chandler demanding an look to their houses, for they might find the department of state it is learned that investigation into the death of Private them in ashes!" Henry, one of the Greely party, in an interview of some length, relates that his only relation to the deceased is by marriage, and that only distantly. The father and mother of the deceased live in Germany. He has a sister living at Lincoln, Neb., named Nora Buck, Henry's proper name is Chas. Henry Buck, he having changed his name on having entered the regular army. Henry is described as a person of 3,000,000 acres in the Indian territory to good education and well brought up. As to meriting his death, Mr. Holmes said: "If he had stolen provisions as Lieutenant Greeley claimed he did, the latter was justi- a child was killed, but this report needs fied in ordering his death.

CITY MARSHAL SHOT.

Caldwell, Kan , Aug. 15 .- Oscar Halsem and Mr. Barefoot shot City Marshal Ray cor and his deputy, of Hunnewell, last night. Hezekish Barefoot was shot in the leg, and the deputy in the neck, the latter will die. Particulars not learned. DYNAMITE.

Burlington, Iowa, Aug. 18 .- Early ver terday morning W. E. Blake, who has been an active attorney in the prosecution of saloon keepers since the prohibition law went into effect, was startled from his bed by a bright flash of light and a sharp explosion. He thought little of it at the time, but on examination leter in the day found a machine of destruction filled with lynamite, which he now thinks was prepared with a view of blowing up his resi ience, but which failed to explode. Mr. Blake says he has no knowledge of his enemy, and that in all the prosecutions he has been courteously treated by the saloon

CAN'T GIVE IT AWAY.

Long Island City, Aug. 18 .- A Russian sailor, wearing the United States navy uniform and having the name of "Bear" upon his cap, was captured by a reporter this morning. The sailor said he was one of the crew of the Bear, that he assisted in preparing the bodies of the Greeley party at Smith's Sound, for burial, and in placing them in the coffins, that all the bodies except one had a piece of tlesh out of them, and the survivors told him where the flesh was missing. On being asked his name the sailor inquired whether it was for the newspapers and refused to give it saying they told him at the navy yard that he must not tell his name or give any information to reporters.

Santa Fe, Aug. 18.—The 'administration is all tore up. The penitentiary bonds which we thought we had disposed of so nicely, have been thrown back upon our hands unsold. The brokers couldn't get rid of a dollar's worth of them. This was known to those who were on the inside on Thursday, but it has only leaked out to-Buck, the sister of Private Henry, asking if day, and it appears when the mournful intelligence was first received, there was quite a circus in the official ranks, and they do say that the Governor actually said 'd-m it!'

MEXICAN THIEVES CAPTURED.

San Francisco, Aug. 18 .- A Matamoras Mexico, special says: The American and Mexican forces, commanded respectively by Sheriff Brite, of Brownsville, and Captains Lagore Guerra and Arando Trevino raided the Petrero and Cerritos, two retreats of bandits. In the first raid 14 monwere found and four captured. At Cerritos there were 15, of which nine were captured. Inscencio Tapaia, one of the Penescal murderers, in trying to escape, was killed Carlos Barrios, another noted cut law, was killed in Matamoras.

THE SITUATION AT TOMBSTONE.

The situation at Tombstone seems to be briefly this: There are several good mines at this place, but there are many of them flooded with water, rendering more machinery necessary to their proper working; hence, without an increase of the ore production, there is much greater cost to the mine owners. In justice to themselves they found that they must reduce their expenses or quit work. Rather than shut down entirely they announced that if the men would work for \$3 per day the mines would not shut down. Some of the men expressed their willingness to accede to this, while a large number of the members of the Miners' Union refused and quit work. In consequence, the mines were shut down and a number of miners were thrown out of employment. Some weeks since the owners of some of the mines announced that they intended to start up again if they could procure miners at \$3 per day. The Grand Central mine had no difficulty enjoying a lively sensation to-day, founded in securing all the men needed at that upon an alleged conspiracy to murder an price. In the meantime the Miners' Union entire family, that of John D. Allan, of had used every effort to induce the mine smelter fame. It is charged by Allan that owners to continue work at \$4 per day, but over three months became savage and made by inference, that the town might possibly be burned down; or, as the President of Chicago, Aug. 16-Wm. Holmes, who the Union said in Shefflin Hall, "they must

On the afternoon of the 8th of the present mouth, a man at work at the Grand Central was passing down into town when he was pointed at by one of three or four men who sad, "There goes a s- of a b-," and then added, "don't you come this way again;" and after the man had gone a short distance, a bullet whistled by his ear, and, turning around, he saw one of the men in the act of drawing sight on him with a Winchester. Then he began with his re volver to shoot back, and his assailant dodged behind a house. It is reported that confirmation. The Sheriff then took charge of the three men, and took him to jail, but was followed by over 200 men uttering threats and other violent demonstrations. The sheriff protected his prisoner, ordering the mob to disperse, which it reluctantly did.

At 3:30 a. m. of the 9th, a mob of nearly 100 men advanced on the hoisting works of the Head Center mine and began shooting at the building; but the guard of seven men returned the fire and drove the mob away. The Sheriff then wired the facts to Governor Van Arman, asking that assistance be sent to aid him in maintaining ororder. Acting Governor Van Arman promptly telegraphed the Secretary of Was for troops from Huachuca, and next day Capt. Tisdall and 23 men reported to Sheriff Ward for duty, and also to Acting Governor Van Arman that he was there awaiting his orders. He was ordered to remain there until further orders. At present everything is quiet there, but there is among the Union men a lot of Molly Mc-Guires who are making all the disturbance. the better element of the Union making no hostile demonstrations and disapprove the riotous conduct.

Tombstone's good name and prosperity depends upon the preservation of law and order. Governor Van Arman says that men who desire to work and earn bread for themselves and families peaceably, shall be protected; and violators of law shall be punished, and the punishment shall be sure. He is entitled to much credit for his prompt action in this matter, and his course throughout should command the admiration of all law-abiding citizens in Arizona and elsewhere.

It is rumored that three of the mob who attacked the Grand Central works early Saturday morning, were hit by the guards. One had his heel grazed, another lost his finger, and a third received a severe wound in the body, which may prove fatal.

A new York car driver in a letter pub lished in one of the daily papers. speaks of Gov. Cleveland's veto of the bill reducing the hours of labor for street car conductors and drivers as follows: "When Governor Cleveland is sleeping in the morning I am at work. When he is attending to his duties during the day I am at work. When he retires to rest at night I am still working. I have a little girl five monts old and during my working days I have never seen her smile, never seen her dark blue eyes and never held her in my arms awake but twice; and yet this is a Christian land. Gov. Cleveland's veto has condemned us to a life in which there is no hope, no joy and no chance of improvement,"- [Irish World.

A "Burro Party" is the latest social organization in Tombstone. The object is tomount a jackas and "jab" him with a sharp stick to make him go.
